

TOP GLOVE ESTABLISHES CARE CENTRE IN SETIA ALAM

29 August 2017 / 12:08

TOP Glove Corporation Bhd has established a one-stop ambulatory care centre to serve the community in and around Setia Alam.

Top Glove Global Doctors (TGGD) Medical and Dental Clinic – a partnership between the world’s largest glove maker with medical practice group, Global Doctors – offers a complete range of medical services encompassing diagnosis, observation, consultation, treatment, intervention and rehabilitation, on an outpatient basis.

“I am very pleased to see these two names in healthcare, Top Glove and Global Doctors, come together to form TGGD, with a common objective: to provide high quality medical care, specialist and dental services to the community in Setia Alam,” Top Glove executive chairman Tan Sri Dr Lim Wee Chai (pic) said this morning.

The healthcare centre represents one of several ventures embarked by the company in its quest to diversify into related business, which include glove inner packing materials and condom manufacturing.

“We cannot depend solely on organic growth. For a company of our size to expand efficiently, we must also look at non-organic growth such as mergers and acquisitions and joint ventures in related businesses with suitable partners such as Global Doctors,” Lim added.

TGGD was officiated by International Trade and Industry Minister Datuk Seri Mustapa Mohamed.
