

TOP GLOVE MAKES IT TO S&P'S GLOBAL SUSTAINABILITY YEARBOOK 2022

02 February 2022 / 12:02

KUALA LUMPUR: Top Glove Corporation Bhd has announced its first-ever inclusion with an “industry mover” distinction in The Sustainability Yearbook 2022 by S&P Global.

The company is one of 53 “industry movers” in the 2022 Yearbook.

“We see the company’s inclusion in the Sustainability Yearbook 2022 by S&P Global as a significant milestone in Top Glove’s journey towards becoming a leading voice in the healthcare manufacturing industry in terms of environmental, social and governance (ESG),” Top Glove managing director Lee Kim Meow said in a statement today.

The annual yearbook is one of the world’s most comprehensive publications providing in-depth analysis on corporate sustainability.

It is based on companies across various industries assessed in the S&P Global Corporate Sustainability Assessments (CSA), which is the basis for the S&P Global ESG Score.

The ESG Score is also the basis for inclusion in the Dow Jones Sustainability Indices (DJSI).
