## PRESS RELEASE

For Immediate Release

**TOP GLOVE CROWNED PLATINUM WINNER AT READER'S DIGEST'S TRUSTED BRANDS ASIA AWARD 2023**

*Recognition is a testament to Top Glove's position as  
a leading and preferred brand in the glove industry*

**Shah Alam, Thursday, 8 June 2023** Top Glove, the world's largest manufacturer of gloves, earned another feather in its cap when it was named a winner at the Reader's Digest Trusted Brands Asia Award 2023 ceremony on 7 June 2023.

Top Glove garnered the coveted Platinum Trusted Brand Award in the Hygiene/Disposable Gloves category, which are given to brands that have topped their category with an overwhelmingly higher score than their nearest competitor.

This marks the first time the glovemaker is receiving this prestigious recognition, a testament to Top Glove's position as a leading and preferred brand in the glove industry within the Asia market.

Top Glove says: "This award is a validation of the value that we deliver to our customers. Since our inception in 1991, we have remained steadfast in our commitment *to produce high quality gloves at an efficient low cost*. Staying true to this time-honoured Business Direction has helped us become a leading manufacturer of disposable rubber gloves."

Top Glove produces a comprehensive range of nitrile, latex and CPE/TPE gloves for a variety of applications. Over the years, the glovemaker has continuously innovated and adapted its product offerings while staying true to its mission of 'Protecting Human Lives Globally'. Its commitment to doing its part to create a more sustainable world led to the introduction of its Biogreen environmentally friendly line of nitrile gloves, which are designed to biodegrade in landfills through a microbial process, providing an end of life solution for nitrile glove waste. These gloves are tested based on the internationally recognised ASTM D5511 standard, which determines anaerobic biodegradation.

The Reader's Digest Trusted Brands Asia Award is exclusively based on consumer voting, scoring the brand across six key attributes of Trustworthiness and Credibility, Quality, Value, Understanding of Customer Needs, Innovation and Social Responsibility. Awards are presented to top brands which are household names in their home country and have been uniquely judged through a consumer market survey involving 8,000 consumers across 5 Asia Pacific

countries namely Malaysia, Singapore, Philippines, Hong Kong and Taiwan. Reader's Digest is a well-known magazine dedicated to helping consumers identify the brands in the marketplace that are value-for-money, reliable and worthy of their business.
